

Final Snowman Steps

BY: Teagan14a

1. The first step is to make the background color #99ffff.
2. Then, make the 1st circle with the fill color white, the line color black, the outline size of 1, the diameter of 8 cm, the circle on the bottom of the page, and the snowball in the middle of the page.
3. Next, make the 2nd circle the same, except the diameter is 6 ½ cm, and vertically on top of the bottom circle.
4. The last circle is like the others only it is 3 ½ in diameter, and put vertically on top of the last.
5. The next step is you draw sticks out of the middle circle with pencil, the line color #663300, the line size 15, 3 fingers, and they come out about 1 in. from the middle.
6. You're going to make your eye line color and fill color black in the shape of two small circles that fit in the top circle.
7. The next 5 circles are slightly bigger circles lining the bottom of the top circle and is black.(the mouth)
8. Next is your nose, it is coned shaped, color #cc6600, the arc 45°, its size is small, and it's in the middle of your snowman's top circle.
9. The scarf is about 1 cm. across and down. Your down part is about 1 cm. from the edge of the snowman's 2nd circle. The color is #66ff33 with about 22 small circles on the scarf (up and down) with the color #0033ff. You use the tool pencil to complete this task.
10. Now make one drawn, black, medium circle at about 1 ½ cm. from the top of the middle circle.
11. Next, make another circle, (drawn) the color #66ffff, about the same size of the first one, right below it, leaving a little space.
12. Now repeat step 15 only this time it will be right below the 2nd one vertically.
13. Finally, make 3 white snowflakes on your right and left with the line size of 8 and with 8 lines out of the center. Now you're done.
